

# BuzziNest

Silent workspaces  
anywhere

**— Finding a quiet space in a busy office  
can be challenging.**

**— Erase noise distractions with  
BuzziNest Booth and Pod.**

# — Why your office needs a BuzziNest

## **Sound blocker inside and out**

The upholstered exterior and fabric panels on the interior dampen sound to create maximum peace and quiet.

## **Customization and add-ons**

Choose from over 90 high-quality fabrics & felts and 3 frame colors. Add a shelf, table, or seating options in different finishes and heights.

## **Compact**

BuzziNest Booth occupies 1.2m<sup>2</sup> / 12sqf,  
BuzziNest Pod 3m<sup>2</sup> / 32sqf.

## **Unique shape**

The curved shape gives a warm and welcoming feel to your space.

## **Mobile**

Built-in castors help you to move BuzziNest around the office, while reorganizing your office space.

## **Easy to install**

BuzziNest can be installed with only 2 people in 1.5 to 2.5 hours maximum, depending on the model.

— **Functional & mobile**

# — Ventilation and light run by motion sensor

no unnecessary electricity usage

always visible when occupied

# — Fresh air supply

## **BuzziNest Booth**

Fresh air in/second: 10 l/sec

Air fully refreshed every 3 min

# — Fresh air supply

## **BuzziNest Pod**

Fresh air in/second: 15 l/sec

Air fully refreshed every 5.6 min

## — Built-in castors

 360°

all directions (left – right – front – back)

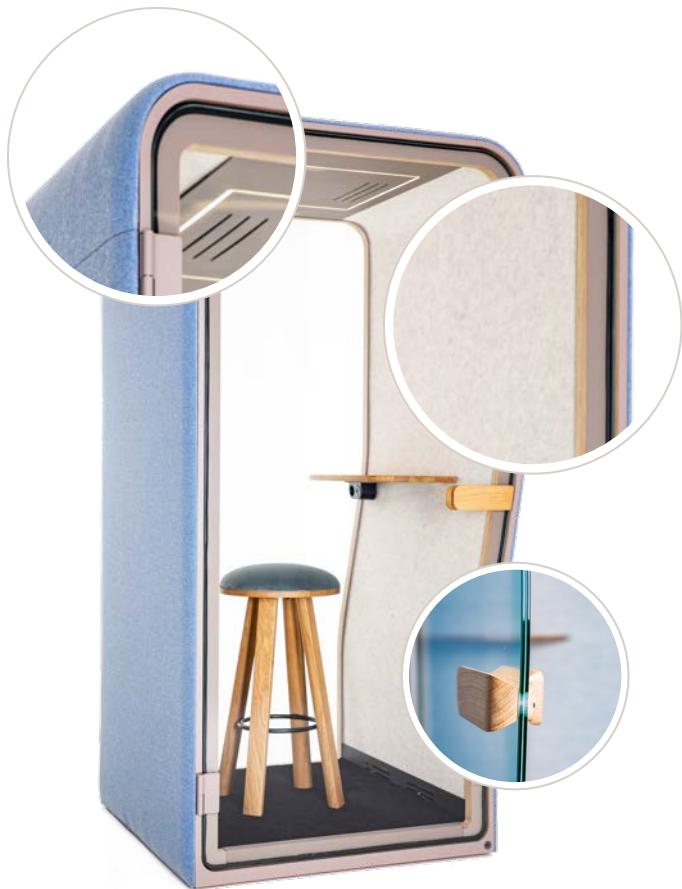

wheels in / out: 2 min Booth | 5 min Pod

More info in the user manual

— **Acoustic performance**

# — Sound blocker

## Acoustic Principles

Max. absorption  
on the outside

Max. attenuation  
on the inside

**High performer on all frequencies,  
especially speech frequencies**

Low tones

Mid tones

High tones

# — Peace and quiet inside

25dB – 30dB sound reduction

A conversation is turned into an indistinguishable whisper

Sound clip: [buzzi.space/buzzinest](https://buzzi.space/buzzinest)

## — **Max** absorption on the inside

Improved call quality (speech intelligibility)

Improved user comfort (acoustic balance)

## — **Max attenuation**

Acoustic layers reduce sound transmission

Improved speech privacy

# — Max attenuation

9 layers for great acoustics

- Fabric = 1/ 1.5mm
- Foam = 10mm
- Plywood = 15mm
- Acoustic foil = 3mm
- Foam = 40mm
- MDF (base trap) = 3mm
- Felt layer 1 = 6mm
- Felt layer 2 = 6mm
- 3D rib + fabric = 25mm

## — **Max attenuation**

How tested?

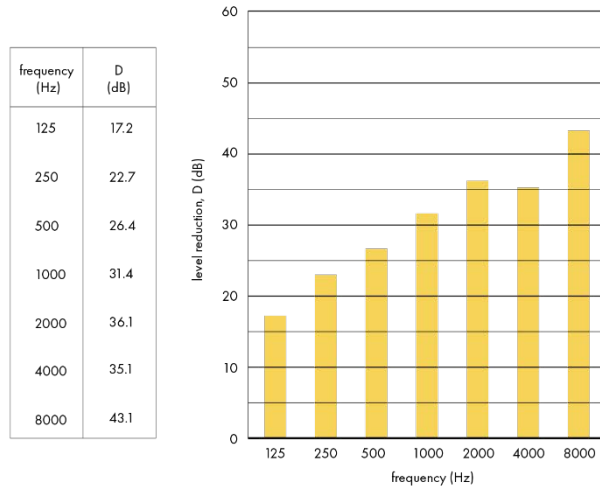

ISO 23351-1 (July 2020)

Determine speech level reduction ( $D_{S,A}$ )  
of acoustically designed furniture

# — Max attenuation

Test results – BuzziNest Booth

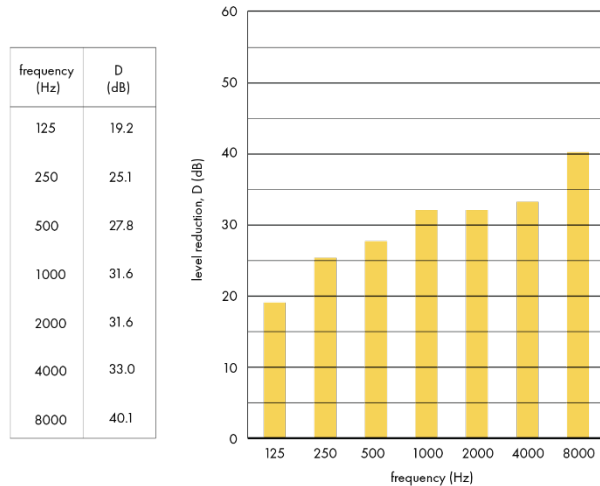

Speech Level Reduction, DS,A = **27.1dB**

# — Max attenuation

Test results – BuzziNest Pod

Speech Level Reduction, DS,A = **28.1dB**

## — Peace and quiet inside

BuzziNest Booth: 27,1dB sound reduction  
BuzziNest Pod: 28.1dB sound reduction

A conversation is turned into an indistinguishable whisper

## — Max absorption on the outside

Outside upholstery is unique to BuzziNest

Improved speech clarity

Lowered noise levels

1x

## — Max absorption on the outside

Comparison with other BuzziSpace products

=

16x

**BuzziTile L**  
(on the wall)

4x

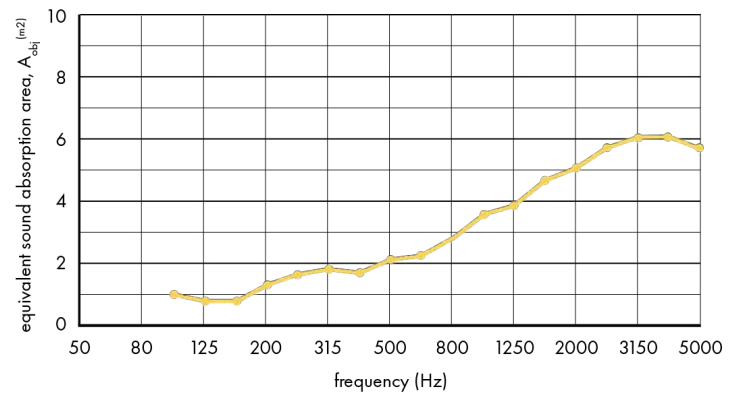

**Pleat Ripple L**  
(on the ceiling)

# — Max absorption on the outside

Test results – BuzziNest Booth

## — Max absorption on the outside

Comparison with other BuzziSpace products

=

**24x**

**BuzziTile L**  
(on the wall)

**6x**

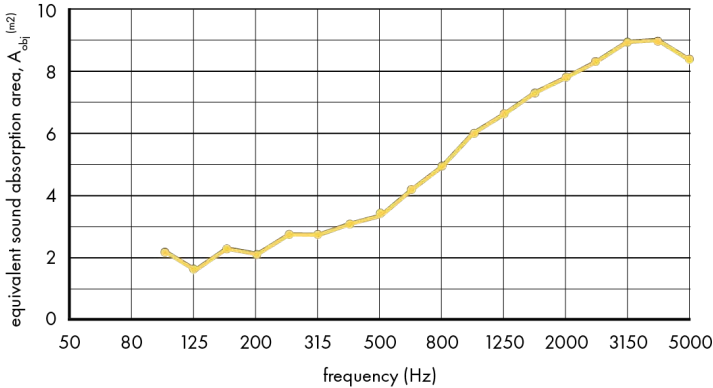

**Pleat Ripple L**  
(on the ceiling)

# — Max absorption on the outside

Test results – BuzziNest Pod

## — Cleaning guidelines

### 1. Windows

Clean the windows with a standard window cleaning solution.

### 2. Frame, table, shelf and door handle

Clean all surfaces frequently with a soft, water-dampened cloth, wiping in the direction of the grain.

### 3. Ventilation

Clean the ventilation fan and grids at least once a year with a vacuum cleaner and brush to ensure a healthy environment inside BuzziNest.

### 4. Fabric, felt and carpet

Vacuum clean regularly. Dust and dirt wear down the textile and also reduce its fire-retardant properties.

Alcohol-based disinfectants can be used without damaging the fabric and felt or changing its color.
