CREATE AN IDEAL
WORKING
ENVIRONMENT IN
ANY SPACE WITH
THE POD

PEACE AND QUIET IN AN INSTANT

When you need to work with maximum focus and minimal distraction, just get into a POD.

It's a compact workspace with huge benefits. Each POD is highly ergonomic and functional, packed with all the technological goodness you need to stay connected to, or away from, the outside world—anytime.

Ideal for uninterrupted work, holding discussions, making important calls and running teleconferences.

THE ADVANTAGES

THE ADVANTAGES

HIGH ACOUSTIC RATING
Beautifully designed and using carefully selected materials with best absorption and isolation performance.
TUV - 32 dB / NIC

EASY TO ASSEMBLE
Flat packed & can be up and running in 1.5 hours

HIGHEST QUALITY
Sophisticated automation machinery ensures consistency of quality, while robust construction using galvanised materials creates the finest quality.

RETRACTABLE & PORTABLE It is designed to be easily dismantled, moved, and reinstalled. Integrated ball bearing to roll around allows ease of mobility in any space.

ENERGY EFFICIENT
Sensor-based on-off switch with external light in-use function and ventilation fan. To ensure the electricity consumption is as low as possible.

COMFORTABLE AND BREATHABLE
Work comfortably in a well-ventilated space with great acoustic properties.

PRODUCT DETAILS

SERENITY IN STYLE

The POD showcases sleek curves and contemporary arches that bring modern sophistication to any work space. It is designed to fit seamlessly yet add an air of calm and serenity to even the busiest of work environments. Minimalist design complement elegant furnishings to create the ultimate work space that is

ergonomic, convenient, and conducive. Effective air-circulation and comfortable seating allows for uninterrupted work experience. Meanwhile, its screens provide excellent attenuation for a perfectly silent and isolated work environment.

- 6 Motion Sensor
- 7 External in-use Light Indicator with sensor-based on-off switch

The acoustic POD was born to address two core issues relating to open plan environments: firstly, the need for physical and acoustic privacy, and secondly, the need for internal rooms.

DESIGNED TO FIT

Made to be portable and flexible in various sizes, the POD is ideal for a range of different uses.

OPEN-PLAN OFFICE

These offices face the problem of excessive, distracting noise caused by loud conversations, keyboard typing, telephone rings, loud footsteps, operating office equipment and more. An isolated space is essential for discussions, calls, and small meetings.

RECEPTION HALL

A reception hall is usually filled with people walking in and out. This high traffic and layout create an environment that traps noise, making it an unwelcoming experience. The POD is crucial in providing comfort and privacy for both visitors and employees.

BREAK-OUT AREA & CAFETERIA

The company break-out areas and canteen are prone to noise and reverberation. Under these circumstances, the POD is a perfect space for a much needed moment of rest and rejuvenation.

RETRACTABLE AND PORTABLE It is designed to be easily dismantled, moved, and reinstalled. This allows flexibility in any workspace.
