RETURN FOCUS POD

Designed by IQ Commercial

PLN GROUP

The Return Focus Pod provides a destination touch-down point which offers both acoustic and visual privacy for individual focused work.

The free-standing unit can be placed anywhere in the office and can move to suit those who require flexibility in their floorplate.

Internally-routed cable management facilitates power and data solutions built into the work surface.

Better Acoustics. Fewer Distractions

Developed in collaboration with award-winning firm, Revolution Fibres, the Return Focus Pod's soft, upholstered walls incorporate exclusive nanofibre technology, which helps mitigate the impact of noise and collaborative efforts. This means both those inside and outside the pod can work more productively, free of distraction.

Quality Manufacturing for Peace of Mind

The Return Focus Pod's robust construction means greater durability and long life of product. It is also a proven low-VOC furniture option. It was tested using the standard ANSI/BIFMA M7.1 test method for determining emission levels for office furniture products and has passed – meaning the product was found to have no harmful off-gassing.

Dimensions	1,700L x 1,300D x 1,300H
Fabric Meterage	9m fabric (4.5 interior; 4.5 exterior)
Options
