

# Active Components™

Screens

PRODUCT SHEET

Bring organization and personalization to the workspace, while supporting diverse workstyles. Active Components screens help create a residential feel in workstations that are adaptable, efficient, and comfortable—all at the same time. Provide a degree of privacy and space delineation in smaller open areas, while offering options that can also free up usable workspace.

Territory Screens

## Why Active Components?

Open and light in scale, the Active Components product line is a set of inviting accessory and furniture elements that draws people in with a sense of improvisation and energy. Through integration with Haworth's product portfolio, Active Components helps improve efficiency in compact footprints with products that support user performance, posture changes, memory cues, collaboration, and focus work.

## Screen Features

For increased privacy in smaller spaces, Active Components screens create a more residential look and feel through a variety of materials, shapes, and profiles.

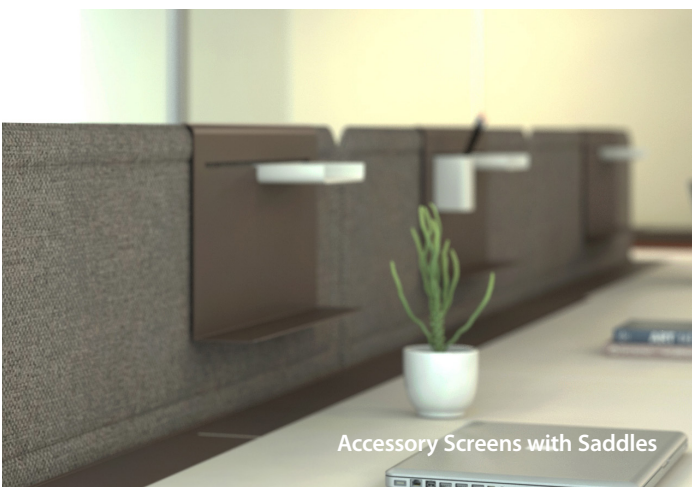

- **Corner, Territory, and Center Screens** – Placed on the worksurface to create personal boundaries, they allow easy power access while supporting personalization and memory cues.
- **Accessory Screen and Screen Saddle** – Work in conjunction with other screens to incorporate additional visual memory cues and organization.

## Statement of Line

The Active Components product line includes upper and lower storage, Side Car worksurface/storage units, screens, worksurfaces, and legs that can all be integrated with other Haworth product lines.
