

Active Components™

Side Car

PRODUCT SHEET

Bring organization and personalization to the workspace, while supporting diverse workstyles. The Active Components Side Car offers users a choice in how they want to work. It provides storage, as well as an alternative standing-height worksurface to encourage posture changes and foster well-being.

Deluxe Side Car with
Sliding Top

Why Active Components?

Open and light in scale, the Active Components product line is a set of inviting accessory and furniture elements that draws people in with a sense of improvisation and energy. Through integration with Haworth's product portfolio, Active Components helps improve efficiency in compact footprints with products that support user performance, posture changes, memory cues, collaboration, and focus work.

Side Car Features

The multi-functional Side Car offers a standing-height storage option to support changing postures for health and well-being. It helps create privacy while providing an alternative workspace or touchdown surface for short periods of time. Available in a basic and deluxe version.

- **Sliding Top** – Provides additional storage that keeps items at hand, but off the worksurface.
- **Mounting Options** – Can be panel-mounted, stanchion-mounted, or freestanding.
- **Privacy Screen** – Provides a level of privacy to the standing worksurface.

Statement of Line

The Active Components product line includes upper and lower storage, Side Car worksurface/storage units, screens, worksurfaces, and legs that can all be integrated with other Haworth product lines.
