

Active Components™

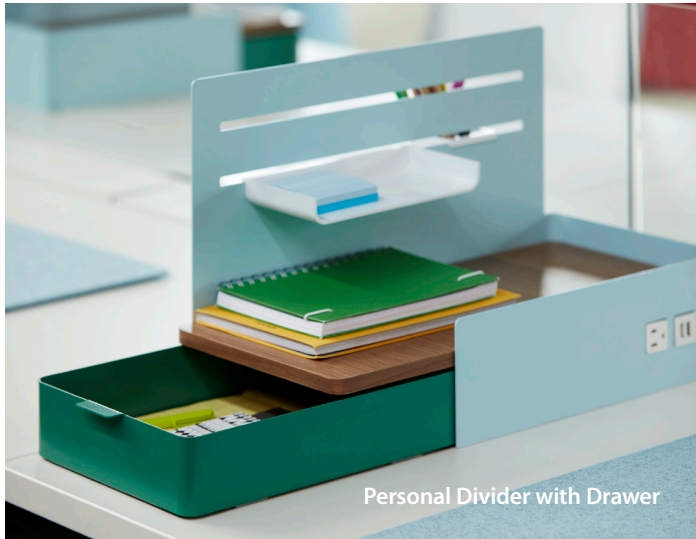

Upper Storage

PRODUCT SHEET

HAWORTH®

Bring organization and personalization to the workspace, while supporting diverse workstyles. Active Components upper storage makes use of vertical space to provide unique and adaptable solutions that keep materials, tools, and personal items handy yet out of the way.

Why Active Components?

Open and light in scale, the Active Components product line is a set of inviting accessory and furniture elements that draws people in with a sense of improvisation and energy. Through integration with Haworth's product portfolio, Active Components helps improve efficiency in compact footprints with products that support user performance, posture changes, memory cues, collaboration, and focus work.

Upper Storage Features

Active Components upper storage offers a variety of adaptable solutions to make open floorplans and smaller workspaces more personal, comfortable, and efficient.

- **Personal Divider with Drawer** – Placed on the worksurface to create personal boundaries, it allows easy power access while supporting personalization and memory cues.
- **Nook** – Mounted on stanchions to raise storage above the worksurface, it increases visual privacy, includes organizational elements for cognitive support, and provides optional USB power access for user control.

Statement of Line

The Active Components product line includes upper and lower storage, Side Car worksurface/storage units, screens, worksurfaces, and legs that can all be integrated with other Haworth product lines.
