

Aloha Easy Family

Task and Guest Seating

EZ DOES IT

Great design, comfort, assembly
& affordability
– the choice is easy.

Haworth's favourite seating system
– the EZ range – has just been
upgraded. With a raft of new
features on board, it's been
redesigned to deliver even greater
value and ergonomic performance.

Add upgraded durability features
such as durable PVC-free arm caps,
abrasion and impact resistance and our
warranty and you can rest assured your task
seating will also look and feel great for longer –
whatever your workspace throws at it.

Adjust the height of EZ65 2.0 Task Chair
anywhere between 580mm and 770mm by
adding a stool chair format and deploy it at the bar,
counter or draft table with ease.

TASK CHAIR

TASK

TASK WITH HEADREST

TASK WITH STOOL BASE

The EZ65 2.0 family is endlessly flexible across multiple office configurations. Its clean, uncluttered design aesthetic fits effortlessly into any work environment, creating a custom look without the hefty price tag.

Sitting comfortably with the EZ design aesthetic, the elegant EZ65 2.0 guest chair is right at home in reception, executive meeting areas or break out spaces. Whether you choose a 4-leg base (with glides or casters) or cantilever sled-base model (with extra bumper comfort), you'll love the fact that both conveniently stack together to free up space when you need it most.

Express your office's individual style or demarcate spaces with color. The EZ65 mesh back is available in six striking shades that you can renew any time and its padded seat can be recovered in a wide range of Haworth seating fabrics.

There's more to the EZ than just good looks. Combining Haworth's world-class ergonomic credentials with thoughtful design and stylish comfort, EZ65 2.0 features fully adjustable lumbar, seat, headrest and armrests so it can easily adapt to a wide range of body types and ways of working. That means work-related injuries like back and joint pain are significantly reduced while workplace wellbeing and productivity is dramatically improved.

HEADREST (optional)

Soft touch feel by PU upholstery and 50mm intuitive height adjustment, perfectly angled for ultimate support and comfort.

MESH BACK

Delivers comfortable back support by weight dispersion through mesh and improved airflow. Aesthetically match easy add-on component kits to an existing back.

ARMREST

Fine-tune height easily with our handy adjustable level. Firm arm cap for added durability. Height adjustable arm as standard to accommodate different statures and work activities

SEAT/BACK ADJUSTMENT

Operation is easy with EZ65 2.0's perfectly integrated seat height adjustment and back lock activation. Enjoy a large range 125mm seat height adjustment and embossed instruction level pad.

CASTERS

Optional soft or hard casters

NEW BACKFRAME

Reduce wear and tear with an integrated side cover for maximum mesh fabric protection. High quality supporting mesh from back frame with advanced mesh production and durability.

NEW LUMBAR SUPPORT

In-built and improved lumbar support design allows the small of the back to retain its natural curve for maximum comfort. Contour ring Zody and Very-inspired lumbar pad design delivers effective pressure distribution and maximum support.

SYNCHRONIZED TILT MECHANISM

Supports ergonomic body posture while reclining.

SEAT DEPTH ADJUSTMENT

50mm seat depth adjustment suitable for up to 95th percent of users.

TILT-TENSION ADJUSTMENT

Experience maximum comfort for all individuals with easy tilt tension adjustment.

Haworth's commitment to sustainability – Creating an aesthetically pleasing and ergonomically sound workspace for your employees doesn't have to cost the earth.

Every piece in the EZ65 2.0 furniture family exceeds industry standards for durability, environmental performance and ergonomics, making it a wiser choice for sustainability-aware organizations.

Haworth manages its design and resources to reduce environmental costs as much as possible. Our EZ65 chair contains more than 49% recycled content – and we've designed its packaging and transportation to minimize both freight costs and environmental implications.

ENVIRONMENTAL CREDENTIALS

- Contains 9.5% post-consumer recycled content, 6.9% pre-consumer recycled content and is 49.4% recyclable
- Contributes to LEED, BCA Green Mark, GBCA Green Star and other Green Building Rating Systems
- BIFMA Level Certified (level one), representing responsibility in the design, manufacturing and use phases
- Certified and 100% recycled fabrics available
- No PVC or other harmful chemicals used
- No ozone depleting substances used during manufacture
- Made in a zero-landfill factory with ISO 14001 and OHAS 18001.
