Side and Seminar Seating

People accomplish a variety of tasks throughout the day. From simple comfort to high ergonomic performance, there's a Very chair for everyone. This family of seating offers versatility in choice and visual consistency in design throughout the building. For flexible spaces where people meet or wait, Very side and seminar chairs provide slender profiles and light-scale design, making it easy to arrange seating on the spot.

Smart Choice for Comfort and Style

Very seating was born out of global design and science-led comfort, offering ergonomic support for people at work. The Very seminar chair features a unique intuitive recline, ensuring your weight is absorbed and distributed to provide natural support. Its side-to-side torsional flex allows the backrest to follow you as you move, increasing mobility and comfort. Side seating is available in a chair or stool for seated or standing-height preferences.
