

Boundary

A double-sided modular upholstery system

Product Description

Boundary is a modular upholstery system whose simple components can either be used individually or linked to provide multiple scenarios. The double-sided modular system is the perfect solution when mid-floor furniture is required to effectively divide the space and provide dense yet flexible multiple seating positions.

The upholstery seating modules can be combined with an infill upholstered linking unit, which can be specified to provide power and data at seat level, and a pivoting worktable.

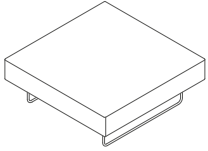

When specified with the single cast aluminium leg, Boundary becomes a companion product to Perimeter, with which it shares many component and dimensional attributes. It can also be specified with a tubular steel leg, with both leg options being available in our standard metal finishes.

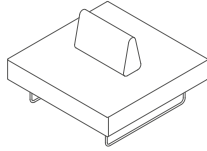

Product Range

BOUNDARY-01
4 seat unit

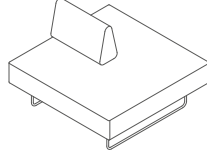

H460 [H18]
W1200 [W47] D1200 [D42]

BOUNDARY-01MM
4 seat unit, mid mount
