

Gustav

Make Any Space Your Space

Light. Handy. Friendly. Yours.

Easy to move around the office

Packs up in seconds

Make any space your space

Activity-Based-Workers can personalise any space with Gustav.

Laptop stand

Enables an ergonomically correct posture in the office or at home

Designed for people in agile offices

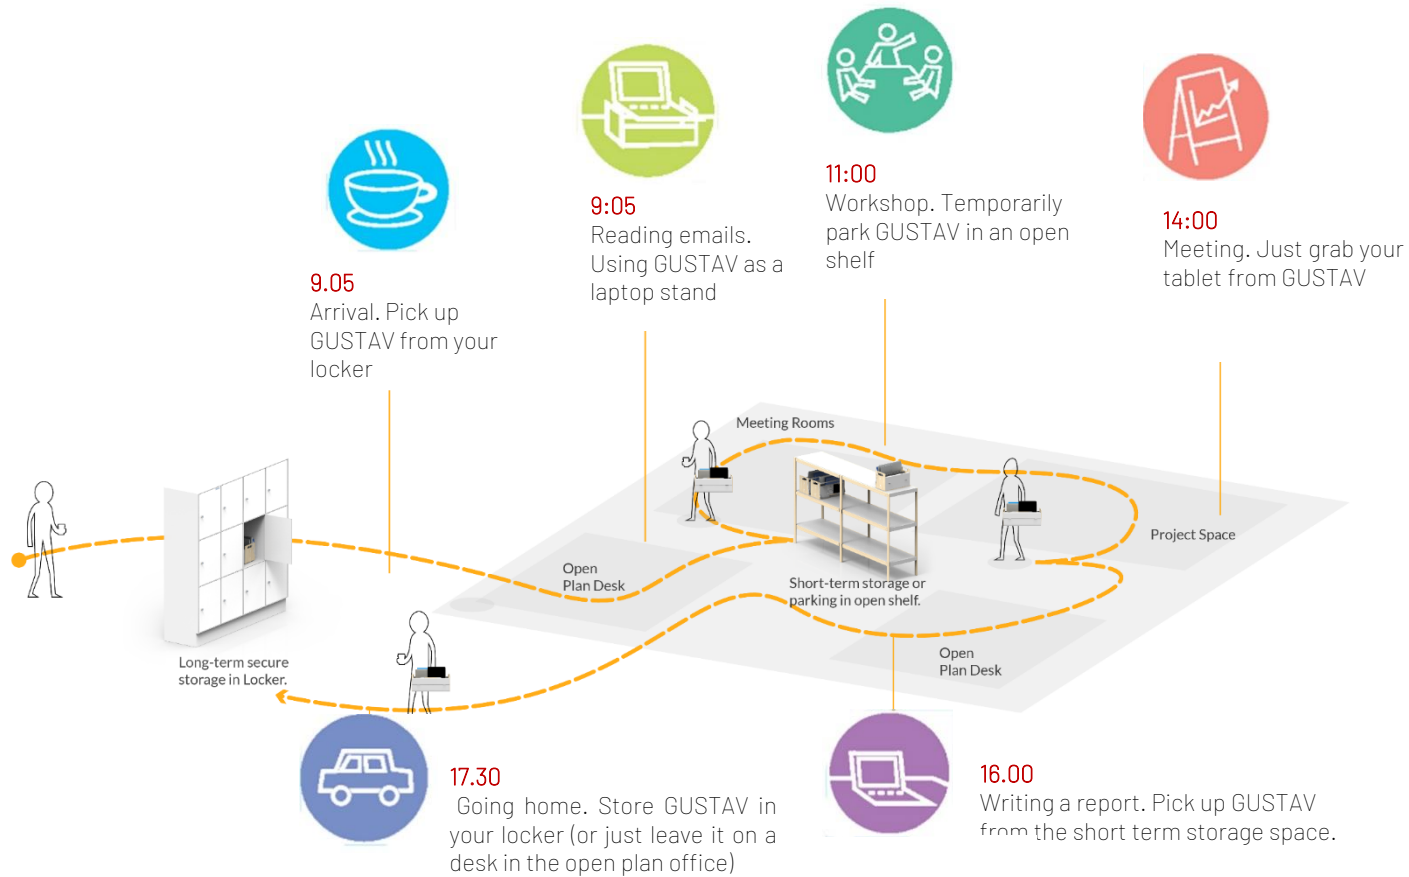

Activity-based and co-working is the most significant change in workplace design. Many people no longer have a dedicated desk at work.

Gustav is there for you to store and move around all the stuff you need and love. The Activity Based Worker's new best friend.

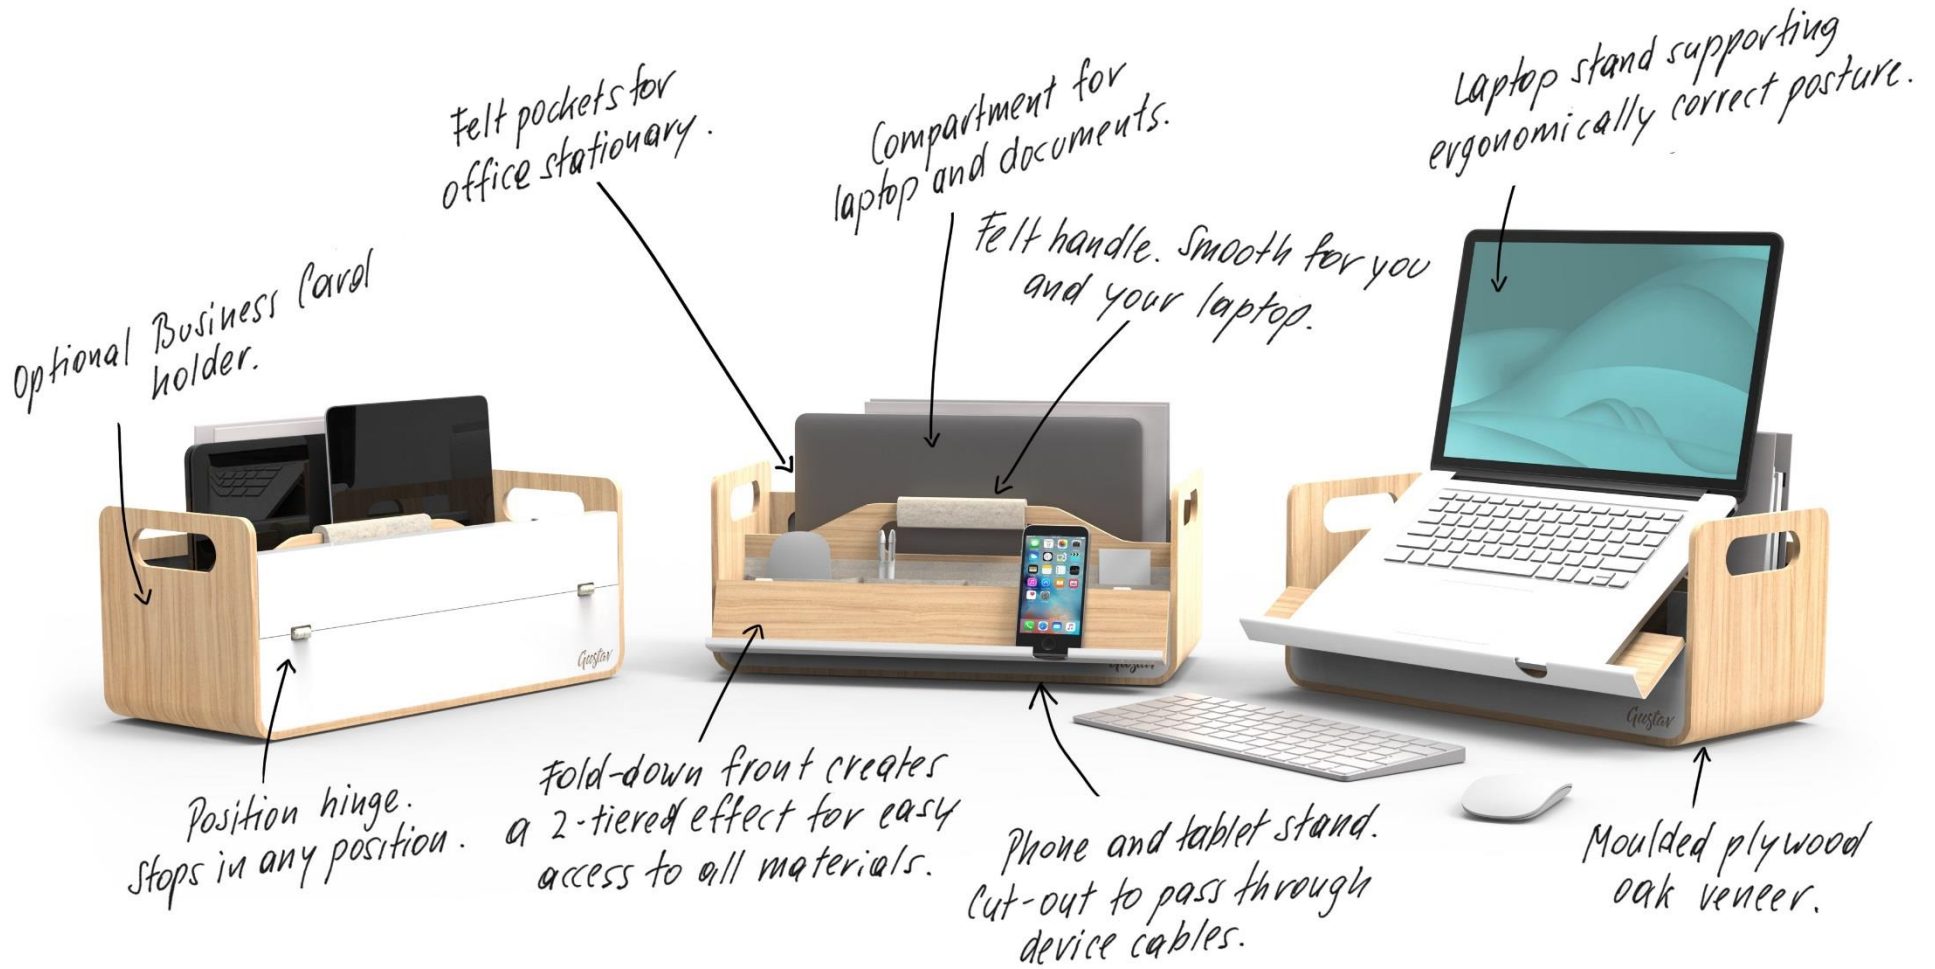

Everything. Anytime. Anywhere.

Gustav occupies the space between your work locker and your personal bag. It is a semi-permanent hub; a place to store those essential work tools you don't take home but need when you are on the move around the office.

Gustav fits everything inside

Optional Business Card holder.

Felt pockets for office stationery.

Compartment for laptop and documents.

Felt handle. Smooth for you and your laptop.

Laptop stand supporting ergonomically correct posture.

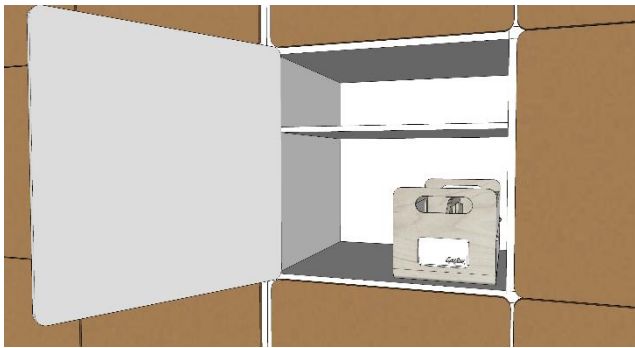

Position hinge. Stops in any position.

Fold-down front creates a 2-tiered effect for easy access to all materials.

Phone and tablet stand. Cut-out to pass through device cables.

Moulded plywood oak veneer.

Parking & Saving Space

Classic Locker

Personal and secure

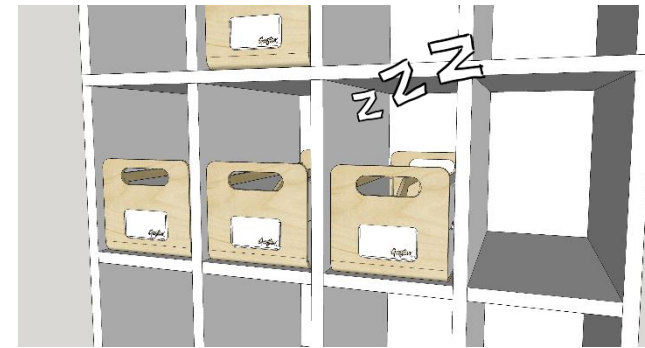

Gustav loves lockers. The minimum required internal locker dimensions are: (L) 410x(W) 180x(H) 250mm

Secure Garage

Secure, shared and a space saver

Gustav Garage is 2.5 times more space efficient than traditional lockers. It allows users to store Gustav in different locations.

Casual Parking

Cost effective, shared and a space saver

A very cost and space efficient solution. Simply park Gustav, fast and easy.

Design

Friendly. Combining the warmth of real wood with minimalistic white elements gives Gustav its friendly look - a welcome contrast to many traditional office environments.

Lightweight. Only 1265g for easy transport. Optimised construction method (plywood bending & aluminum) to ensure lightness and durability

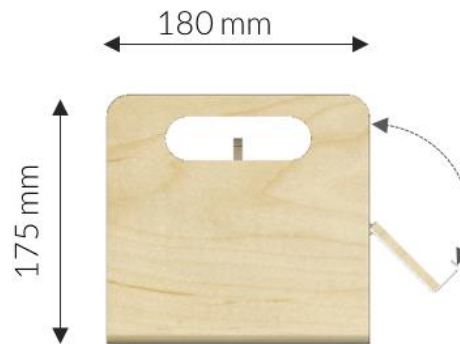

Handy. Compartments are easily accessible, designed around the size of the human hand.

As small as possible, but big enough to fit all essential tools and belongings. The product size is optimised so Gustav fits easily in a standard locker.

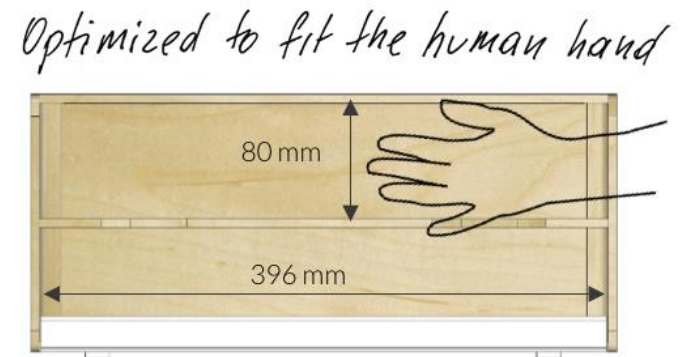

Ergonomic. Laptop stand for 13" and 15" laptops.
