

Flat Disc Table

Versatile, Durable, Made Local

The Flat Disc base is proudly manufactured in New Zealand, offering a durable and stylish foundation for your table design. Built to suit your specified top size, this base combines strength with a sleek, modern aesthetic.

Available in powder-coated finishes of Matte Black Texture, Mannex White, or a custom colour of your choice (minimum charge may apply), the Flat Disc base provides flexibility to match any interior theme. It can be supplied as a base only or complete with a top, making it an ideal solution for hospitality, office, and breakout spaces where quality and customization matter.

Simple, clean lines. Our Flat Disc bases are fully welded and made in New Zealand to order. Made from mild steel they have a powdercoat finish (Matt Black Texture, Silver Star, Mannex White) as standard choices, with other Dulux powdercoating colours available with an additional charge. Three Standard heights 380mm, 700mm, and 1025mm. They can be supplied with a top of your choice, or as a base only.
