

Trilo Table

Robust Style for Any Space

The Trilo Table base is the latest evolution of ISSA's renowned Silo family, designed and manufactured in New Zealand to meet the demands of high-use commercial environments. Featuring a welded multi-tubular structure, Trilo delivers exceptional strength and stability while maintaining a sleek, designer aesthetic.

Built for durability and flexibility, Trilo is fabricated in mild steel for indoor use or aluminium for outdoor applications. For added versatility, an optional metal top is available to pair perfectly with the base. Each base is finished in a premium powdercoat, with Matte Black Texture or Mannex White as standard, or choose any custom colour for an additional cost. Adjustable glides come standard, ensuring stability on uneven floors.
