

Basics Tables

Strong Frames, Endless Options

ISSA designs and manufactures high-quality steel table and barleaner frames locally in New Zealand. Our frames are built for strength, style, and flexibility, offering finish options including stainless steel, chrome, or durable powdercoat. Choose from a range of tube sizes and specify your own dimensions to create the perfect fit for your space.

We can supply frames as bases only or complete with a top of your choice. Every piece is crafted to meet your requirements, ensuring a premium, long-lasting solution for commercial or residential environments.

Dimensions

Table Footprint Width & Depth - customized

Width to suit 600-2400mm
