

# Athena Power Rail

## Power Meets Design

The CMS Athena Power Rail combines cutting-edge technology with timeless design for modern workspaces. Featuring advanced inline services like USB-A/C fast charging and optional Helipad or Helistand wireless modules, Athena ensures seamless connectivity. Installation is quick and versatile with snap-in clamps and self-fastening paddles for top-mounted applications, suitable for surfaces 20–35mm thick. Designed for both style and functionality, Athena is the ultimate power solution for contemporary environments.
