

## Slide

The perfect accessory for breakout & meeting

Slide features a single hand, quick release making adjustment very simple. Slide has an adjustment range of 270mm, so you can sit correctly in even the most relaxed environments. Slide will support your laptop with ease and even provides hanging space for small bags. The work surface can be tilted to a convenient angle and when not in use can be rotated fully for efficient storage.

The asymmetric leg design provides comfort and modesty and its low profile means it can be brought close to you. The legs will easily fit under most sofas or chairs.
