

Kite

Agile folding & nesting tables

Kite Folding tables ensure everyone has a defined 750mm of workspace with a straight edge and a clear line of sight to colleagues. With 580mm of uninterrupted legroom, no one sits astride a table leg, writes over a seam or is squashed into a corner.

50mm height adjustment ensures that each table-top meets flush on the most uneven floors. The patented jewel castor ensures that the table is as stable as fixed-frame furniture. The locked castor prevents the need for linking devices.

Kite Folding tables require no heavy lifting, are easy to manoeuvre through egress routes and require only one person to reconfigure or create settings.

The vast number of configurations that can be achieved with Kite allows users to easily create settings to suit their needs.

Dimensions

RECTANGLE SHAPE

740h x 1500w x 750d mm

KITE SHAPE

740h x 1299w x 905d mm

Warranty

- 10 year warranty on frames
