

Hotbox 3

Flexible portable storage

Hotbox 3 is more than just a laptop bag, it has endless storage possibilities to meet everyone's agile working requirements. With separate compartments for a laptop, an iPad, notebook, phone, pens and business cards Hotbox 3 keeps you organised when you travel and wherever you choose to work.

It is weatherproof, mobile and understated, organising all the tools you need to have a successful workday.

Hotbox 3 is made from Rivet by Camira, an ultra-modern fabric comprising REPREVE® polyester that is both luxurious and sustainable in its design. Each Hotbox 3 contains seven recycled 500ml PET bottles.

What other product looks good and is kind to the environment at the same time?
