

Monsoon Soft Seating

Soft Seating Systems for Office Spaces

Designed and meticulously crafted in New Zealand, Monsoon by Europlan epitomises a luxurious furniture experience tailored explicitly for commercial and office use. The introduction of the Monsoon by Europlan range marks a shift in away-from-the-desk workspaces, providing an area for focused work. Monsoon by Europlan delivers functionality and sophistication that you won't find in traditional soft seating ranges.

Monsoon by Europlan comes in high-backed and low-backed options. The high-backed version offers an elevated level of support, providing comprehensive coverage for the upper back and neck. This design is particularly beneficial for those who prioritise additional spine and neck support, promoting a more upright and formal seating posture alongside efficient privacy and acoustic benefits.

The low-backed Monsoon by Europlan exudes a more contemporary and relaxed aesthetic, offering freedom of movement and a casual seating experience. With a lower backrest, it encourages a laid-back posture, making it ideal for informal collaborative settings or spaces where a more relaxed ambience is desired.

Europlan proudly stocks the globally renowned furniture brand Haworth, alongside our own range. Experience the best soft seating in NZ and explore our showrooms full of solutions, located in Auckland, Christchurch, and Wellington.
