

Ebb Monitor Arm

Ergonomic & Space-Saving Design

The Europlan Ebb Monitor Arm is a premium solution for creating a healthier, more efficient workstation. Designed with a user-focused and dynamic approach, this monitor arm helps you maintain an ergonomic posture while freeing up valuable desk space. Its sleek, powder-coated aluminium construction ensures durability and a modern aesthetic that complements any office environment.

Smart Design & Functionality

The Ebb Monitor Arm is available in single or double arm configurations, making it ideal for both individual and multi-screen setups. Integrated cable management keeps your workspace neat and organized, reducing distractions and improving workflow. With smooth adjustability, you can easily position your monitor at the perfect height and angle for comfort and productivity.
