

BuzziNest Booth

Office privacy booths for quiet office spaces

Available in both left- or right-handed models and a range of different colours and fabrics, BuzziNest Booth will fit right into your office decor, and is easy to install. Built-in castors can be suspended from the base to help move the acoustic booth to a new spot, which can then be secured by putting it back on its feet.

BuzziNest Booth is equipped with a top-of-the-line fresh air ventilation system, which takes air from the top and pushes air inside, down, and out through the bottom. Once you step inside, the fans engage at full capacity. In addition, a motion sensor LED ceiling light turns on when BuzziNest Booth is in use and off when it's not occupied.

Dimensions

Height	2180mm
