

Loria Stool

Sleek style. Many uses.

During the production processes, maximum attention is paid to reducing the consumption of raw materials, rationalising resources, reusing and/or recycling waste, and controlling emissions. Making durable products, both aesthetically and in terms of resistance, is the key element in guaranteeing sustainability. right from its design, the Loria collection is conceived to be disassembled when a component is replaced, in order to limit its consumption.

The Loria collection is made from high quality, recyclable and environmentally friendly raw materials. The colour 'Taupe' is made of polypropylene recycled 50% from post-consumer plastic waste and 50% from post-industrial plastic waste. The post-consumer plastic waste comes from products previously used by consumers, such as plastic bottles or food packaging. The industrial component comes from waste plastics, containers and plastic films.

Dimensions

KITCHEN STOOL

Overall height - 890mm
Seat height - 650mm
Width - 565mm
Depth - 465mm
Footrest - 200mm H

BAR STOOL

Overall height - 990mm
Seat height - 750mm
Width - 565mm
Depth - 495mm
Footrest - 300mm H
